SUMMARY

Front-End Developer with experience in building web and mobile applications. Solid foundation in programming and software development, with a strong ability to work in teams and contribute to successful project outcomes.

EXPERIENCE

Front-End Developer Intern

Intelliseven Technology Solutions Inc.

March 4, 2025 – June 2025

PROJECTS

POS System Application (Internship at Intelliseven Technology Solutions Inc.)

- Front-End Developer for a tablet-based POS mobile app using React Native, Redux, and TypeScript.
- Used Git and GitHub for version control and team collaboration.
- Ensured responsive UI and smooth UX for retail operations.

CSPC Conversational Agent (Thesis Project)

- Designed and programmed the CSPC Conversational Agent, an AI-powered chatbot for assisting students and faculty.
- Utilized Python, Hugging Face Transformers, Streamlit, and Hugging Face Space to deploy the system.
- Hosted and showcased the project on: [CSPC Conversational Agent](#)

SIAS Online Portal Redesign

- Revamped the SIAS Online Portal to enhance user experience and improve functionality.
 - Utilized HTML, CSS, Bootstrap, and JavaScript to design and implement a modern, responsive interface.
 - Project repository available on GitHub: [SIAS Online Portal Redesign](#)
-
